## 2000 Shot Peening and Blast Cleaning Workshop

October 24, 25, 26 in Colorado Springs, Colorado

### OUR 10TH ANNUAL WORKSHOP

It's one of a kind and it only happens once a year. Electronics Incorporated is a pioneer in shot peening and blast cleaning training—since our first workshop in 1991, we have attracted students from around the world that want to improve the quality and control of their shot peening and blast cleaning processes. This workshop is truly unique; there is no other time or place where you can be exposed to so much information from our industry.

The workshop will be at the Sheraton Colorado Springs. Participants in the workshop will get a group rate of \$109 for a single or double room. Make sure that you mention the workshop when you register. Please register for the workshop **before** you register at the hotel.

The cost of the workshop is listed below. We offer a discount for multiple attendees from one company to encourage a team approach.

### THE TRADE SHOW

Electronics Inc. is sponsoring the 2000 Shot Peening and Blast Cleaning Trade Show in conjunction with the workshop. The trade show is open to all workshop attendees and readers of the two EI newsletters. This show will be a unique opportunity to display and view the products of the shot peening and blast cleaning industry. Exhibit fees are \$2000 per booth. Since we are limited to 30 booths, we encourage you to register early.

### REGISTRATION

Registration for the workshop is limited to 200 students. To reserve a space, return the form on page 23 or call Pam Champaigne at 1-800-832-5653 or (219)256-5001. A registration form for the trade show is on page 24. In both cases, payment must accompany registration. ●
