

Hydro Honing Laboratories, Inc.

Hydro Honing Laboratories, Inc. recently became the first vendor approved to process parts in accordance with Pratt & Whitney Aircraft's computer controlled peening specification PWA-36930. This approval makes Hydro Honing the first and currently only supplier to be approved for this type of shot peening for Pratt & Whitney.

This achievement also makes Hydro Honing the first company approved for this type of shot peening for both Pratt & Whitney and General Electric Aircraft Engines. Hydro Honing earned approval for GE's computer controlled peening specification P11TF8 several years ago.

Hydro Honing operates a number of computer-controlled and robotic machines meeting these stringent specifications.

Hydro Honing Laboratories runs a 40-man job shop in an industrial complex in East Hartford, Connecticut, providing a full range of peening services for a variety of industries including aerospace, power generation, and oil and natural gas.
