And much, much
more!

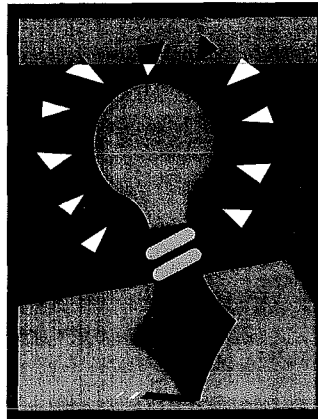

Announcing: Our Spotlight on Shot Peening Contest

2001043

Our recent articles, "Spotlight On: Shot Peening and the Mountain Bike Industry" (Spring, 2001) and "Spotlight On: Shot Peening and NASCAR" (Summer, 2001) were so well received that we want to continue to feature unique applications of shot peening.

We know that you, our readers, have many stories to tell... and we will reward you for sharing!

The rules are simple: Tell us, in 500 words or less, about your company's most unusual shot peening project. We're looking for tough problems with a unique solution, or products and services provided to an industry that's not normally associated with shot peening. We are interested in hearing from every sector of

the shot peening industry including manufacturers, distributors, universities and job shops.

EI staff will select three winners and the winning stories will be featured in upcoming issues of *The Shot Peener*. The winners will be able to include photos and logos, and copywriting and editing assistance will be provided. (Winners of the contest will be asked to get written permission to use their clients' names in the article—we don't want to reveal

proprietary information!)

This is a great opportunity to promote the creativity and problem-solving abilities of your staff. Our industry has a lot to be proud of and *The Shot Peener* is committed to giving you the recognition you deserve. ●

1st Place: Palm m100™ Handheld
2nd Place: Logitech Optical Mouse
3rd Place: Blue LED Pen
