

With input and approval from quality industry leaders such as Alcoa, SAE International, Goodrich, Honeywell Aerospace and Rolls-Royce plc, eQuaLearn offers professional development courses in subjects such as Internal Auditing, Root Cause & Corrective Action and Introduction to Pyrometry.

# PRI Launches eQuaLearn.com for Quality Industry Professional Development

On April 15, 2008, as part of their Customer Solutions and Support Initiatives, the Performance Review Institute (PRI) launched [www.eQuaLearn.com](http://www.eQuaLearn.com), a new website dedicated to sharing information on Professional Development courses for quality industry professionals.

This new, dynamic and interactive site supports eQuaLearn courses including:

- **Internal Auditing** - Course is a two-day program designed to meet the needs of the Internal Audit Manager and Internal Auditor.
- **Introduction to Pyrometry** - Course is a two-day program designed to provide an in-depth review of the AMS2750D specification.
- **Root Cause Corrective Action** - Course is a one-day program designed to teach participants how to analyze problems and determine long-term solutions.
- **On-Site Learning Solutions** - Bring any of PRI's professional development programs to your company. You can train your employees at the location of your choice and customize the learning to meet your objectives.

Watch for new courses in Problem Solving and Mistake Proofing, Contract Review, Introduction to Quality and more. Currently, course fees are \$250 to \$600 and include all materials, breakfast, lunch and a course completion certificate.

Classes are held throughout the world with multi-lingual instructors to better serve the customers' needs. Administration is handled by the PRI sector offices in the Americas, Europe and Asia, allowing the instructors time to focus on the students. This also facilitates 24-hour customer service availability.

"To launch eQuaLearn, PRI has worked to develop an exceptional learning and performance management solution. This enables PRI to focus efforts on developing excellent quality

industry professional development courses for international clients and consolidate PRI's position as a leader in quality training. This user-friendly online system gives customers greater control at their convenience," said Arshad Hafeez, Director of Global Business Operations at the Performance Review Institute.

Customers and Training Managers interested in improving Quality while guaranteeing business results can book and pay for courses online, participate in online training sessions from the comfort of their own desks, check their own training records – and those of their direct reports – and partner with PRI to develop customized courses and individually branded training websites based on [www.eQuaLearn.com](http://www.eQuaLearn.com).

The web site also has a library with tips, articles and resources to help you and your business succeed. Some of the topics covered in the library include:

- **Internal Audit Preparation Tips**
- **Components of Quality**
- **Learning Keeps your Brain Young**
- **How to Get the Most from Training**
- **Study on Talent Management**

If you are attending AeroEngine Expo 2008 this fall in Paris, make sure to stop by the eQuaLearn exhibit. The exhibit will be free to attendees that register before the deadline. Visit [www.aeroengineexpo.com](http://www.aeroengineexpo.com).

To provide service across the world, eQuaLearn is recruiting instructors and subject matter experts to teach and develop programs. eQuaLearn Instructors:

- Travel the world as subject matter experts and work from their home
- Receive a competitive daily rate and are guaranteed timely payment
- Manage their own schedules and choose when they want to work

An pre-screening application is available at the web site.
